

WELCOME TO OUR 'ON-LINE' NEWSLETTER

Welcome to our first on-line newsletter. We hope you can find this service informative and rewarding with some Jaguar XK related technical info and the odd special offer or two.

This is where you will see our latest products and developments at Guy Broad's and the uprating programme of the 'Broadsport' name.

Not many customers know we have a large collection of 'new' original parts as well as some very rare secondhand XK parts & products. It is here we also hope to give you a chance to find something a little bit special that may not be available anywhere else in the world!

If you like what you see, don't forget to tell someone else, if you have any questions or good ideas don't forget to tell us.

We feel it is very important to give our loyal customers the latest information and products with varying discounts and special help to get the job done well. Let's all keep in touch.

Best wishes for Christmas and the New Year.

BROADSPORT

Broadsport products and developments were introduced around ten years ago when it became clear demand was rapidly increasing for more sporting cars with various power and handling improvements. From our racing background we could develop products to enhance all areas of the XK, from engines, gearboxes, suspension, brakes and latterly even to creature comforts such as interiors, lighting and electrical upgrades.

The bespoke building of complete Broadsport XK's has helped us understand the wants and needs of the discerning owner, from touring, rallying or even racing we can tailor parts packages to achieve the best possible performance whatever the conditions.

Our large format thirty page colour Selection Catalogue and our XK Engine Catalogue cover a huge range of enhancements and upgrades.

To order a catalogue, please call us on +44 (0) 1676 541980 or click here to [contact us](#).

Keep up to date with the latest info on cars in the Broadsport workshop.

BROADSPORT NO. 18

Another special 'Bronze' Broadsport XK120 Roadster under construction. All the best bits are going into an ultimate Touring, Rallying car. We also have a NEW ALL ALUMINIUM 120 Roadster bodyshell for another very special project. Why not contact us if you have any questions or interest in one of our special builds. Anything is possible, and the price will reflect the value for now and future investment.

BROADSPORT 120

As some of you already know my Father and I have a passion for XK120's, believing the 120 is the purest form of XK. Although the basic design is stunning to look at, some of the mechanicals can be considered a little antiquated by today's standards. So, over many years and many rebuilds we have developed, with ideas from customers, racers and modern technology to re-invent the XK120 for today's demanding owners. With all this in mind we pride ourselves on being the leading builders and restorers of the most sporting XK120's. Fast, safe and above all maximum fun, many consider a Broadsport XK120 to be the ultimate XK Experience, producing a classic supercar.

I'm afraid you won't see many Broadsport XK's for sale as the discerning owners do not wish to sell them on, in many cases selling all other classic cars or XK's just to keep hold of their Broadsport XK. This hopefully says a great deal about the passion and effort we put into each unique project. Our latest 'Bronze Beauty' is coming along well, with just about every extra and upgrade we can think of - it will be another very special car. If you have an interest or an idea to build your own special XK, why not give us a call and see just how many ways we can help you achieve the ultimate in XK pleasure.
