**XK 140-150 5 SPEED GEARBOX**

- JAGUAR XK 120-140-150 PARTS SPECIALISTS -  
BROADACRES, WALL HILL ROAD, CORLEY, COVENTRY CV7 8AD  
www.guybroad.co.uk - follow the Instagram @guybroadspares

**KIT INCLUDES:**

Complete BroadSport Gearbox, Complete gear linkage, Reverse light switch, Speedometer cable assembly, Rear chassis mounting kit with weld in metal plate (XK120 only), Clutch Plate (organic), 8x Bellhousing Mounting Bolts (7/16"UNC)

**GEAR RATIOS:**

1st = 3.31:1  
2nd = 2.08:1  
3rd = 1.36:1  
4th = 1:1  
5th = 0.763:1  
Reverse = 3.26:1

**WARNING!**

When fitting the gearbox DO NOT try to change gears without rotating the shafts and without proper lubricant inside the gearbox!

**IMPORTANT:**

After initial instillation we strongly recommend that you check all fixtures, fittings and components which you may have removed during instillation. After filling the gearbox with 1.2 Litres of SAE80 W90 Gear Oil, check reverse light switch is operational. Then test drive the car without trim.

**NOTE:**

- Bellhousing to gearbox mounting bolts are supplied (nuts and washers also in box) and should not be changed with any other bolts.
- 7/16" UNC thread into gearbox case.
- This Gearbox can be used with original Jaguar Bronze pilot bush.

**ASSEMBLY:**

For the XK 140/150 Gearbox there is NO rear mount. Once bolted to the Bellhousing the engine hangs in 'fresh air'. As can be seen in the image below.

This means, no need for any cutting or welding of any chassis parts.

Fitment of  
Speedo Cable

**PROPSHAFT:**

If you are altering your own propshaft, the closed length should be 900mm
